• Mongoose • Remix IDE

RESPONSIBILITY

VOLUNTEER | AURORA 2020

Central India's Largest Cultural Fest

VOLUNTEER | URJA 2019

Inter House Sports Fest

EXPERIENCE

COMPACT GYAN | FULL STACK DEVELOPER INTERN

June 2021 – Aug 2021 | Remote

- Worked as a Full Stack Developer for the **ERP** portal.
- Created an Inventory Management System that allows for paperless tracking of an Institute's physical stocks (completed within a week).
- Created an **Issue Management System** where the severity of issues is decided by the votes users give it, allowing for faster resolution of more critical issues (completed within 2 weeks).
- Created an online system that issued Identification cards to multiple students (completed within a week).
- Analyzed and tested code quality and ensured smooth frontend and backend integration.
- Built using **React**, **Node**, **Express**, and **MongoDB**.

PROJECTS

DEV COMMUNITY | WEB APPLICATION

April 2021

- A web application that is mainly used by the developer community to discuss the latest tools and technologies.
- Used firebase for database and authentication purposes and ReactJS for the frontend.
- Github:// [devCommunity](#), Hosted Link:// [devCommunity.netlify.app](#)
- **Tech Stack:** ReactJS, Firebase, Redux

DIGI SHOP | WEB APPLICATION

Mar 2021

- A fully featured e-commerce website made using MERN stack and Redux.
- CRUD operations enabled for admin only.
- **Online Payment Integration** using PayPal and **COD** feature.
- Github:// [Digi-Shop](#), Hosted Link:// [Digi-Shop](#)
- **Tech Stack:** MERN, Redux, JWT, Bootstrap, Razorpay API

CROWDFUNDING-APP | WEB APPLICATION

Jan 2021

- This project acts as a crowdfunding platform for NGOs.
- To weed out fraudulent NGOs, I integrated 2-factor authentication using **Twilio API** to verify users via an OTP sent to their registered mobile.
- Used the Stripe API to ensure a smooth and seamless donation experience.
- Created an Admin panel that allows NGOs to track their project as well as their donation milestone.
- Used Multer and GridFS to store images on a central database rather than relying on a third-party image hosting service.
- Github:// [CrowdFunding-App](#)
- **Tech Stack :** NodeJS, Express, Express Handlebars, Multer, GridFS

ACHIEVEMENTS

- Qualified for Level 2 in Flipkart GRID 4.0
- Emerging cricket player at Urja, the Intra College Sports Fest.
- Science stream topper of Bal Bharati Public School Noida 2018 - 2019 with a percentage of 96.8%
